DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 1/8/01 has been considered by the examiner.

Additional Prior Art Cited

Peng discloses an optical scanner including two drive units for rotating two mirrors about an axis.

Allowable Subject Matter

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: Montagu discloses a scanning microscope having an apparatus for light beam deflection. The apparatus for light beam deflection comprises a first mirror arrangement (54) for deflecting a light beam, and a rotary drive having two drive units (50, 64) for alternatively rotating the first mirror arrangement (Fig. 3) as that defined in claim 1 of the instant application. However, Montagu does not teach or suggest the rotary drive has two mutually independent drive units for rotating the first mirror arrangement, together or mutually independent, about a rotation axis defined by said rotary drive (claim 1, last three lines) (note that in light of the specification of the present invention, "a rotation axis (5) defined by said rotary drive (1)" recited in claim 1, last line, is a common rotation axis

(5) of the two drive units (2,3) (see paragraph 0029, last two lines, and Fig. 1). There is no motivation to modify the apparatus disclosed in Montagu so as to meet the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
